

MCS 2000 - additional module system

- additional system for gas detection control MCS 2000 - 8 for the following modules:
 - sensor output module 8 inputs 4-20 mA
 - analogue output module 8 outputs 4-20 mA
 - relays output module 12 potential-free relays contacts freely programmable
 - power supply module 24 V/2 A
 - emergency power supply module 24 V
 - telephone dialling unit
- wiring via bus line Y(ST)Y 2 x 2 x 0.8 mm² (max. 1200 m) to gas detection control MCS 2000 - 8
- different modules can be connected to the bus line successively
- plastic case or switch cabinets

Technical specifications – subject to change without notice

Case	wall housing or blind frame for switch cabinet installation	
Case material	polystyrene	
Measurements	H x B x T	260 x 250 x 90 mm, incl. cable gland
Protection system	IP 58	
Temperature range	-20 °C ... +50 °C	
Relative humidity	15-90 %
